MUSTER 2011

Massachusetts Maritime Academy

Academy President:

Congratulations on a job well done!

Richard Gurnon

The Class of 2011 is underway! I am sure that\fact brings great joy to you and your families as we all celebrate the culmination of years of hard work by the members of the class. I remember well your appearance on the horizon; 334 individuals - most away from home for the first time, eyes wide with wonder. Orientation was your first true challenge but certainly not your last. Two weeks at MMA's "summer camp" (filled with fun activities like sailing and rowing, sports and swimming, and with a significant portion devoted to individual auditory stimulation by the "camp counselors") were followed immediately by the crush of academics. Here at MMA everyone takes Chemistry, everyone takes Physics and everyone takes Calculus (some, take it more than once). There are no easy courses in a Bachelor of Science degree that consists of five years of college jammed into four, with months of practical experience and life in a strict regimental system plied on for good measure.

I am very proud of each one of you in the class. Some years ago you made a very difficult decision to buck peer pressure and chose the road less traveled. That took true courage. During the intervening years you have experienced times of excitement as you made new friends, learned new skills and saw new places. There were also tough times, however, when you had to summon your courage on Sunday evenings and leave the safety of your home to return to the demanding crush of life at MMA. You routinely waved goodbye to family and friends from the decks of ships, the windows of cars, or the doors of airports…but saying goodbye never became routine. It always hurt a bit. During these past years you have grown more confident and become prepared. You have stood taller as you mastered the skills of your trade and the wisdom gained from experience. In short, you have grown into a professional and I am particularly pleased to be able to witness your successful completion of the curriculum and, for the cadets in the class, the very difficult regimental leadership program. After weathering the storms and steering past the rocks and shoals at one of the most difficult college choices in the nation, you have sailed into the harbor of your dreams. Waving goodbye to you will hurt a bit, but I am proud of what you have become and wish for you fair winds and following seas on the next exciting voyage of your life.

Best regards,
Rick Gurnon
President, MMA
Rear Admiral, USMS

Regimental Commander:
Alex Jarvis

To the Class of 2011,

I am sure there are many of you who have been counting down the days to graduation since Orientation 2007. Well shipmates, our time has come to move on into the vast world of the unknown. The days of morning formation and inspections are behind us, and we all have a new adventure to look forward to.

We have been through a lot together, both the trying times and the good times. I have no doubts that all of you have made lifelong friends at this academy, friends that are the only people who can understand what this institution is truly about. The experiences we have all been through have molded us into confident, self-disciplined individuals whose capabilities have no ends.

I wish you all the best of luck in your future endeavors; however, I know you will not need luck. You have been given all the tools that you need to be successful in this world and I look forward to hearing about the happiness and fulfillment that life has given you. Have a Buccaneer Day!

Sincerely Your Shipmate,
Alex R. Jarvis
